

Works Unite

Interface®

**Works Unite. Innovative differences.**

Naturally opposing views can create true moments of innovation. Free flowing thoughts, emerging from an ideation session, will blur all lines to really push the envelope. When such individual contributions brilliantly combine, real feelings of group unity develop. Everyone owns the idea. In a similar way, Works Unite innovatively fuses contrasting, linear and organic patterns, seamlessly merging them into a plank format. Texture is grouped with height variation to create smart, layering effects and a sense of moving forward. Works Unite is the intuitive way of creating spaces where opposites attract, beautifully.

The new Works Series has one vision, to work smarter together for every space. Every detail of Works Series works smarter to give greater versatility and drive value at the same time.

Combined with your ideas, each floor can create +Positive spaces™ which help their users thrive by letting them live, work, learn and regain inspiration every day. Each Works Series tile will prove to be the smart move for our planet's future too. As with every Interface product, they are Carbon Neutral, so they help you lower your carbon footprint with one positive step.
